

CLIMATE RISK & ASSET RESILIENCE

SUMMIT 2026

Where leaders gather to future-proof assets & infrastructure

28-30 July 2026 | Sydney

Partnership Prospectus

What is the **Climate Risk & Asset Resilience Summit 2026**?

The **Climate Risk & Asset Resilience Summit 2026** brings together asset owners and operators from across industry and the public sector to tackle one question:

How do we protect assets, infrastructure, networks and services in a changing climate?

Physical climate impacts are no longer theoretical or long-term. Fires, floods, heat and extreme weather are already disrupting operations, straining maintenance regimes, threatening insurance cover, and forcing difficult investment and service-continuity decisions.

This summit delivers clear pathways to solve those challenges. Attendees will leave prepared to assess risk, prioritise operationally and commercially viable resilience investments, navigate insurance risks, and drive coordination between operations, engineering, tech, risk, and governance teams to protect their assets.

Who will you meet?

The **Climate Risk & Asset Resilience Summit 2026** is designed for decision makers across the public and private sectors responsible for owning, operating, financing, regulating or safeguarding physical assets and critical infrastructure under climate risk.

The event brings together leaders from asset-heavy sectors, including but not limited to:

- Utilities – energy, water & gas
- Transport infrastructure – roads, rail, ports & airports
- Telecommunications
- Engineering, construction & asset services
- Property developers, owners & REITs
- Mining, resources & industrial operations
- Government departments, agencies, regulators & local councils
- Insurers, reinsurers, financiers & infrastructure investors

This event is ideal for any leader responsible for protecting asset performance, service continuity and long-term value in a changing climate, including those with a job function related to:

- Operations
- Risk
- Asset management
- Engineering, maintenance & reliability
- Technology, data & modelling
- Infrastructure & facilities
- Climate risk, resilience & adaptation
- Capital investment
- Insurance
- Governance, compliance & regulatory affairs

David Young
Director of Sustainability
Accor

Why leaders and decision makers will be at the Climate Risk & Asset Resilience Summit 2026

Attendees will leave the summit ready to:

- 1 Identify & assess climate risk at the asset and network level
- 2 Learn how different sectors are solving climate risk challenges
- 3 Protect service continuity, asset performance and long-term value
- 4 Prioritise resilience investments under operational, financial and insurance constraints
- 5 Strengthen critical assets against heat, flood, fire and extreme weather risks
- 6 Design and upgrade assets using better tech, data, standards and lifecycle models
- 7 Improve coordination across operations, engineering, tech, governance & risk

Who should partner?

If you provide technology, data, engineering, advisory, insurance or financing solutions that help organisations assess, protect and adapt physical assets to climate risk, then you need to be at the **Climate Risk & Asset Resilience Summit 2026**.

Connect with senior decision-makers responsible for protecting critical assets, managing climate risk and directing long-term capital investment. As climate impacts intensify, these leaders are actively seeking practical, scalable solutions to strengthen resilience and ensure service continuity.

Sponsorship offers a high-value opportunity to position your organisation at the centre of this urgent market need.

This is a must to be involved for organisations offering solutions and services related to:

- Data, Digital Twin & Climate Modelling Providers
- Infrastructure, Asset & Condition Monitoring Technology
- Climate Risk, Asset Valuation & Analytics Providers
- Engineering, Infrastructure & Asset Management Firms
- Climate, ESG & Sustainability Advisory Firms
- Legal, Governance & Compliance Specialists
- Insurers, Reinsurers & Risk Modelling Providers
- Technology & Innovation Startups

Why partner?

Position your organisation at the forefront of climate-resilient infrastructure and asset protection

At a moment when climate impacts are reshaping priorities, the **Climate Risk & Asset Resilience Summit 2026** provides a direct line to senior decision-makers actively responsible for asset performance, capital investment, risk exposure and service continuity.

Raise your visibility and be recognised as an expert in strengthening asset resilience and service continuity

Climate Risk and Asset Resilience 2026 positions your organisation as a thought leader in front of government and industry leading speakers as well as an inquisitive and influential audience of attendees.

Increase reach

Use ours! Climate Risk and Asset Resilience 2026 marketing reaches over 10,000+ unique, targeted contacts - join our campaign early and benefit from 5+ months of brand awareness.

Meet the right people

With multiple networking opportunities across the 2 main conference days, you can expand your network and socialise with existing and prospective clients. We target the key influencers and decision makers, and you grow your community through authentic, meaningful interactions across the event.

Launch new products or services

Showcase new and innovative products and services to an interested and influential audience of senior decision-makers actively seeking solutions.

Build your brand
